SUMMER PROGRAMME

Friday 26 June 2020 saw the end of the school's two-week online summer school.

Students from P1, P2 and P3 joined in a fun packed two weeks summer programme engaging in activities for classes in English, Mathematics, Science and ICT and Robotics.

Our dedicated team of T Paul, T Kirk, T EeRen, T Joffre, T Alveen and T DJ, led the programme and worked hard to improve the students' skill sets. A big thanks you to our teachers and a big "WELL DONE!" to all our participating students for their hard work and enthusiasm. Also, a big thank you to our parents for your continued support.

Complimentary Classes 29 June to 24 July.

We look forward to welcoming everybody back for the Complimentary Classes starting on Monday morning (29 June). As we will be running a full timetable and we ask that all students attend

school in their full school uniform.

The school staff has been busy preparing the school for the "new normal". Precautions and safety procedures are in place to ensure the school will be a safe area for our students

and staff. Letters have been sent to all parents outlining procedures and guidelines.

Parent's temperature will be taken at the school entrance. If any parent has a temperature above 37.5C we will be unable to allow the parents and students of the family into the school grounds. Lunch will now be divided into 2 sittings.

The teachers will ensure social distancing, mask wearing and hand washing throughout the day. The desks in the classrooms have all been placed to comply with social distancing requirements. The school has been inspected by the local government office and they are happy with the arrangements the school has put in place.

distancing requirements. The school has been inspected by the local government office and they are happy with the arrangements the school has put in place.

The teachers and staff at SSIS are all looking forward to the return of the students to school and a return to some normality. It will be a new normality, but, if we all pull together, we can ensure that despite the difficulties caused by the pandemic, our student's education will not suffer.
