

Greetings to our all our SSIS family.

Here we are in mid-May of 2021 and we find ourselves back teaching and studying online. We all hoped that after the January scare this year the entire world would by now, be getting back to some kind of new normal. Unfortunately, the twists and turns of the

Covid-19 epidemic mean that since April 23rd we have found ourselves teaching back on our VLE platform.

The school is now well versed in online teaching, although we are always trying to improve. The teachers and staff at the school have been working hard to ensure the online experience is meaningful and productive for the students, with as little disruption as possible to the learning process. However, we must thank all parents, guardians and students for also working hard to make the process a success. We thank you all for your continued cooperation and support.

Through this newsletter we would like to update you with what has been happening in our online classes recently. We are pleased to report that attendance during the classes has been virtually 100% and all students have participated well, so well done to all our hard-working students (not to mention mums and dads!)

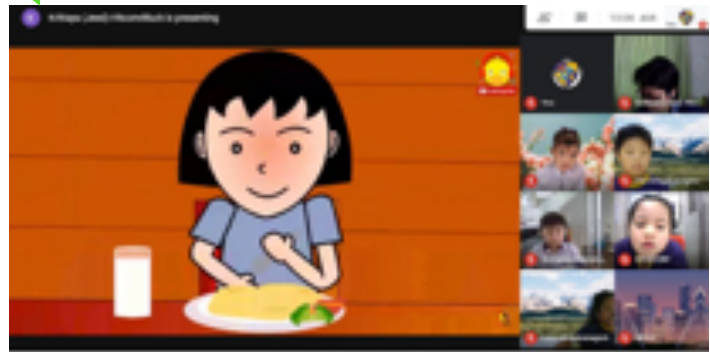

Please stay safe everyone and if you have any questions, or any problems you would like to discuss, please contact your child's Form Teacher, and we will always help as best we can.

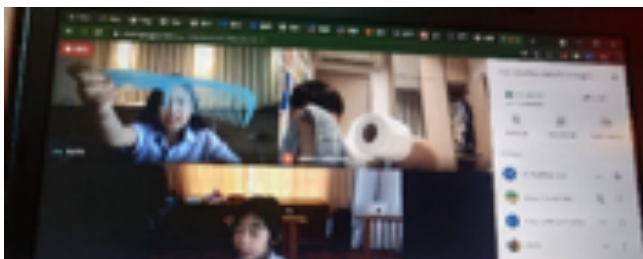

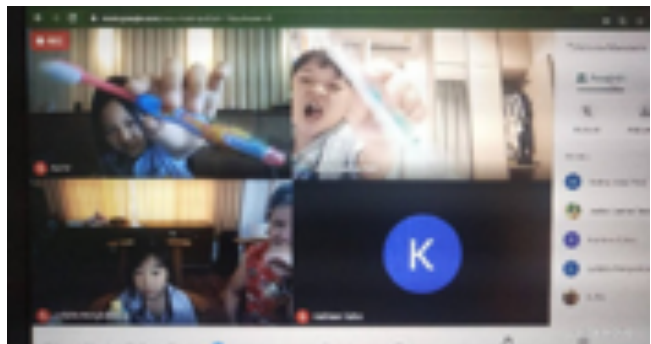

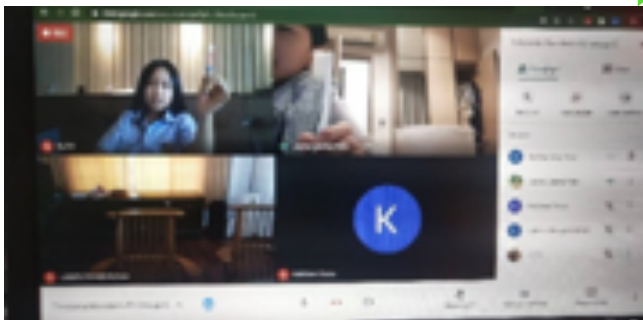

VLE IN ACTION!

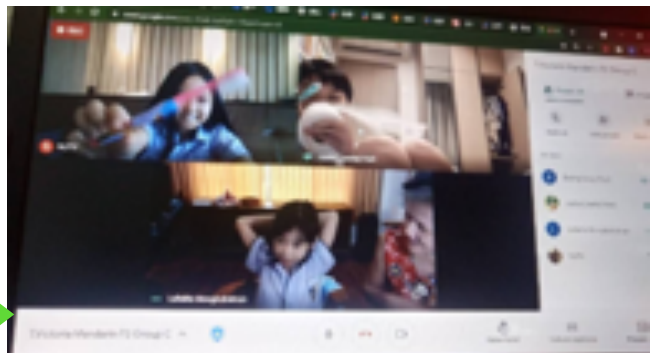

Teacher Jeed can make me smile. But she can also make me work hard.

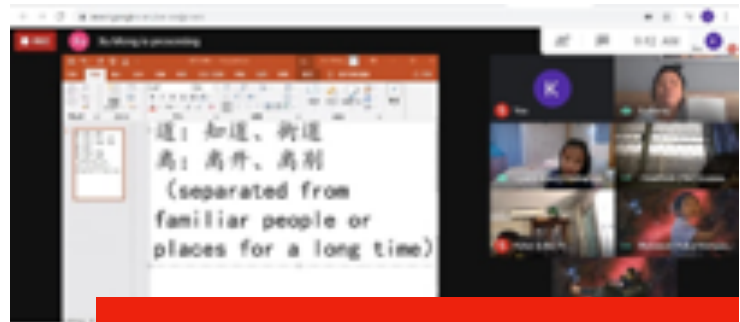

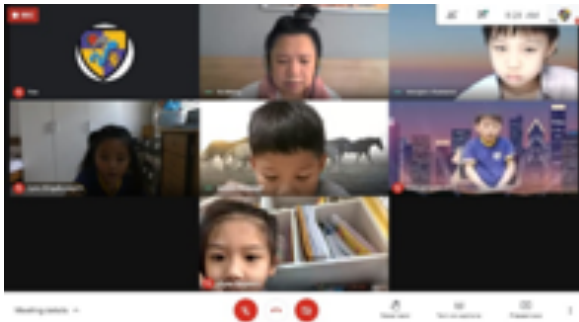

How do I say "yummy" in Thai, Teacher Jeed?

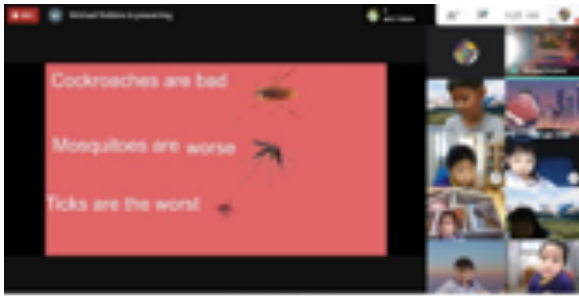

Teacher Victoria talks about everyday household items in Mandarin.

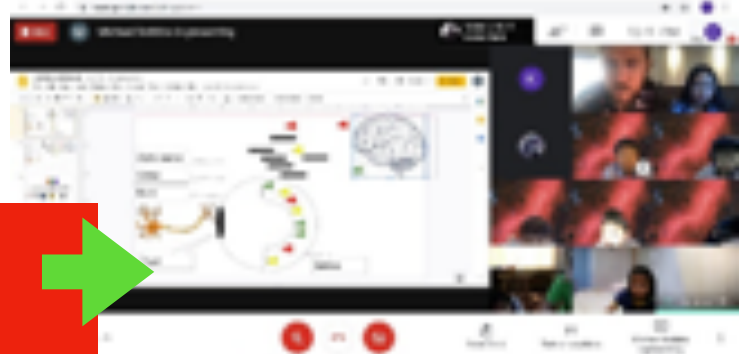

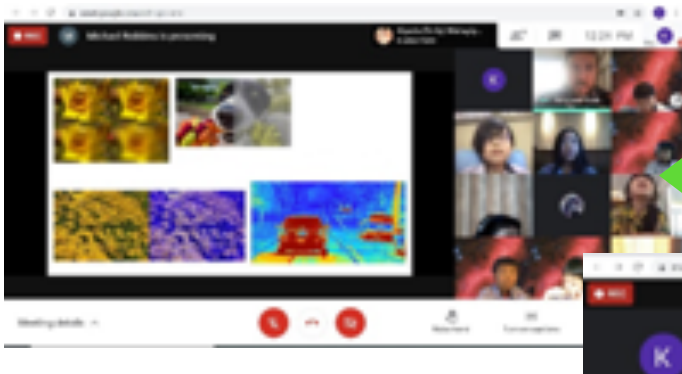

T Juliana, I like Mandarin, but why is it so difficult?

I don't like cockroaches Teacher Michael. But I love science.

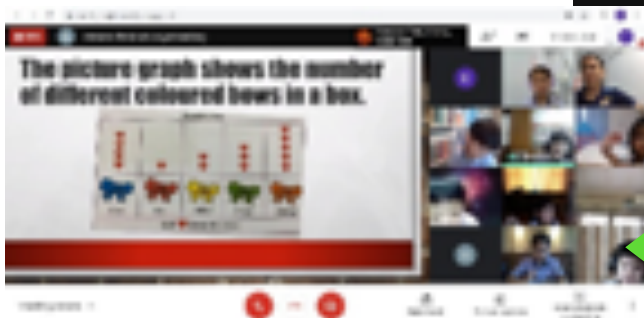

I don't like cockroaches Teacher Michael. But I love science.

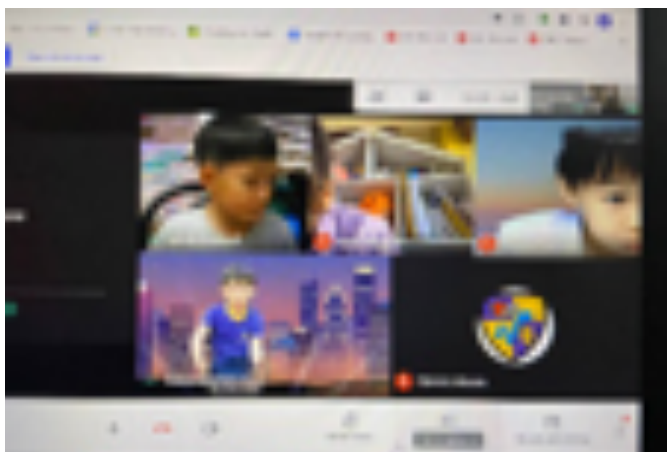

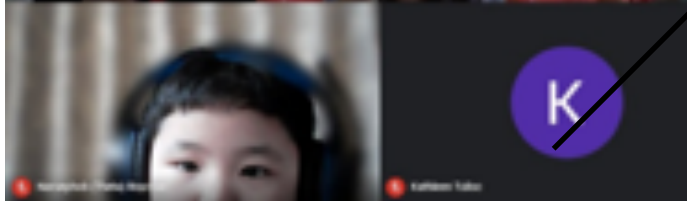

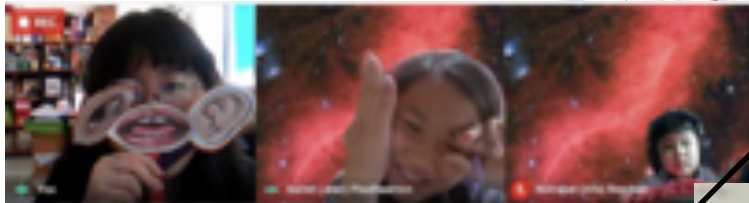

Can you spell that last word again Teacher Tyler?

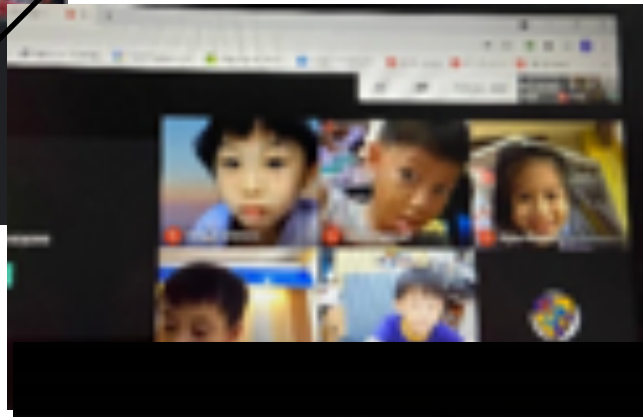

I love bows and hearts. Now, what do you want me to do Teacher Arianne?

What big ears you have! All the better to hear you teacher.

We love you Teacher Nam.
